## SERVICE AND REGULATORY ANNOUNCEMENTS

### BUREAU OF ANIMAL INDUSTRY

AUGUST, 1932

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may purchase them from the Superintendent of Documents, Government Printing Office, Washington, D. C. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

## LABELING MEAT FOOD PRODUCTS CONTAINING ADDED GELATIN

In labeling meat food products to which gelatin is added under the Federal meat inspection service a distinction has been made between so-called packing-house gelatin (that is, gelatin prepared in the official establishment from inspected and passed product) and commercial gelatin.

In the future, however, no such distinction in labeling will be continued. Both types of gelatin will be regarded simply as gelatin, and permitted to be used under the instructions applicable to packing-house gelatin. All instructions in conflict with the foregoing are hereby revoked.

### PROCEEDINGS UNDER THE PACKERS AND STOCKYARDS ACT, AUGUST, 1932

*Docket No. 384.*—In re John L. Sullivan, dealer, Omaha, Nebr. On March 17, 1932, the Acting Secretary of Agriculture issued an inquiry, alleging that respondent had engaged in an unfair and unjustly discriminatory and deceptive practice and device in connection with the buying and selling of livestock in commerce. On July 1, 1932, a hearing was held. On August 17, 1932, respondent was ordered to cease and desist from the unfair and deceptive practice and device of selling livestock purchased through a clearing agency without truly and correctly accounting to such agency, and of misrepresenting in his inventory or otherwise to such agency the number of livestock sold by him and the number actually in his possession. Respondent was also suspended from registration as a dealer for a period of six months.

### LUNCH HOUR AT BUREAU STATIONS

At all stations where the bureau office force includes more than one employee the offices must be kept open through the noon hour. This can readily be accomplished by staggering the lunch periods of employees. In case there is but one employee, the lunch period must be limited to one-half hour, preferably from 12 to 12.30. In any case the lunch period should be definitely fixed for the accommodation of the public. On Saturdays, in order to comply with the act providing for Saturday half holidays, such offices must be open at least four hours, exclusive of time for luncheon.

### FREE DISTRIBUTION OF PUBLICATIONS RESTRICTED

As a result of reduced funds for both new publications and reprints, the department has found it necessary to restrict rather drastically the free distribution of its publications. Their distribution at fairs and expositions has been discontinued entirely.

The bureau suggests that supplies of publications in field offices be conserved, so far as possible, by limiting distribution only to persons making specific requests for the information, or in cases when a publication is used as an adjunct to correspondence or personal interview. So far as funds and supplies permit, the bureau

will furnish its field offices with the more essential farmers' bulletins and other sources of information relating to field activities and general service to stock raising and agriculture. However, judicious conservation of available supplies is imperative; otherwise even the more essential bulletins dealing with disease control and other important bureau activities may become unavailable except by purchase from the Superintendent of Documents, Government Printing Office, Washington, D. C.

### DR. FREDERICK W. MEYST DIES

Dr. Frederick W. Meyst, for more than 25 years an employee of the bureau and an authority on labeling and other phases of meat inspection, died in Washington, D. C., August 1, following an extended illness. He was born in St. Cloud, Minn., in 1883. In 1906 he accepted an appointment in the Department of Agriculture and was assigned, at various times, to meat inspection at Chicago and South St. Paul. On May 1, 1912, he was placed in charge of the label section, meat-inspection service, a position which involved approval of meat labels and supervision of the labeling of domestic and imported meat and meat food products.

### NEW PUBLICATIONS OF THE BUREAU

[The bureau keeps no mailing list for sending publications to individual employees but sends copies to officers in charge of stations and offices. These publications should be regarded as notification copies. So far as possible additional copies will be furnished on request.]
